DETAILED ACTION

1. Acknowledgement is made for the request to establish continued prosecution application (RCE) filed on August 4, 2004. The request for RCE is accepted and is established with the status of the application as follows:

a. the filling date of this RCE is established as 1/5/2001;

b. Claims 1-9, 17-20, 24 are pending. Claims 1-2, 18-19 are amended. Claims 10-16, 21-23 are cancelled.

2. The Amendment filed on 8/4/2004 has been entered and considered.

3. The following is an examiner's statement of reasons for allowance:

Claims 1-9, 17-20, and 24 are allowed.

The present invention is directed to a method for detecting a current helicobacter pylori infection in a patient's stool sample.

The closest prior art teaches a method for detection of a Helicobacter Pylori DNA in a patient's stool sample, and did not teach identifying a patient as having a current Helicobacter pylori infection if the nucleic acid is present in a length of at least 175 base pairs and in an amount indicative of infection, the amount exceeding an amount indicative of a patient having no current infection. Thus, the instant invention was not taught or obvious over the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
